✉ arnavjshi@gmail.com | 📞 +91 9356351894 | 🌐 arnav-joshi-aj05 | 📱 arnavjshi

Software engineer focused on building scalable **backend systems**, **low-latency APIs**, and **secure applications**. Strong in data structures, problem solving, and system design. Experienced with cloud platforms, CI/CD automation, and distributed systems using AWS and Azure.

EDUCATION

B.Tech in Information Technology (Honors) <i>Shri Ramdeobaba College of Engineering and Management, Nagpur</i>	2023 – 2027 CGPA: 9.18
--	---

EXPERIENCE AND INTERNSHIPS

Software Developer Intern — AILifeBot	<i>Remote — Feb–May 2026</i>
--	------------------------------

- Built and deployed REST APIs for enterprise applications supporting real-time data workflows
- Designed low-latency workflows for real-time data processing
- Worked across full SDLC including development, testing, and debugging
- Improved system reliability through monitoring and performance optimization

Cloud Virtual Intern

Remote — Jul–Sep 2025

EduSkills (AICTE – AWS Academy)

- Completed a 10-week cloud internship based on AWS Academy curriculum.
- Studied cloud fundamentals including compute, storage, networking, and security.

Full Stack Developer Intern — Youniformwala

Remote — May–Aug 2025

- Engineered a scalable **Next.js + FastAPI + SQLAlchemy + PostgreSQL** e-Commerce platform using microservice architecture.
- Implemented JWT authentication, OAuth2.0, and RBAC to strengthen API security.
- Enhanced database query performance and API efficiency, reducing latency by 25%.
- Deployed automated CI/CD pipelines using **GitHub Actions** and Docker for AWS EC2.

Tech Intern — CompEx 2025

Nagpur — Dec 2024–Jan 2025

- Developed a real-time scoreboard system using **React + Firebase Realtime DB** for 100+ live participants.
- Systematized data synchronization via Firebase Cloud Functions, cutting manual delay by 35%.
- Devised role-based dashboards and analytics tools for efficient event operations.

PROJECTS

ThreatDetect Dashboard—(LIVE)

Next.js, Fast API, NLP, Tensorflow, YoloV8n

- A real-time multimodal AI surveillance system with **97.4% threat detection accuracy** using video, audio, and NLP fusion.
- Integrated **YOLOv8**, audio **CNNs**, and **Llama 3.1** for intelligent anomaly detection and contextual threat analysis.
- Developed **scalable APIs** and a **live monitoring dashboard** with sub-second real-time alert processing.

EduBot—(LIVE)

Next.js, Flask, Gemini

- Formulated an **AI-powered learning platform** with a Next.js frontend and Flask backend for real-time content generation.
- Integrated **Gemini APIs** to generate explanations, flashcards, MCQs, and quizzes dynamically.
- Applied **user preference handling** to personalize learning content and difficulty levels.
- Created scalable REST APIs enabling **low-latency, interactive learning experiences**.

AI Misinformation Detection Agent—(LIVE)

Next.js, Flask, Elasticsearch, Hugging Face, AWS Lambda

- Constructed a multimodal agent integrating text, audio, and image analysis to identify misinformation with **92% accuracy**.
- Leveraged **Elasticsearch** for fast content indexing and semantic retrieval, cutting query latency by **40%**.
- Rolled out backend inference pipeline on **AWS Lambda**, reducing compute costs by **30%**.

ClipMind AI

Agentic AI, Video Processing, FFmpeg

- Built a **lightweight AI agent** using **Gemini** to identify and generate high-engagement video clips automatically.
- Developed an **AI-driven video analysis pipeline** for highlight detection, smart clipping, and short-form content generation.
- Created a **fast local interface** with **Streamlit** optimized for efficient low-resource AI processing.

CERTIFICATIONS

- **Cloud Architecting**, AWS Academy(60 Hours), Sep 2025
- **Data Engineering**, AWS Academy(40 Hours), Dec 2025
- **Computer Vision and Image Processing**, IBM ,2025
- **Python Programming**, Google(Coursera), Feb 2024
- **Cybersecurity Architecture**, IBM(Coursera),2025

ACHIVEMENTS

- Solved 400+ DSA problems (**LeetCode + other Platforms**)
- 200+ day coding and contribution streak
- Contributed to open-source projects at **OpenSauced - Pizza CLI** and **AutoMQ**
- Participated in national-level **hackathons**

[ALL CERTIFICATES](#)

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C, SQL

Backend: Node.js, Express, Flask, REST APIs, Microservices, Authentication (JWT, OAuth2)

Frontend: React, Next.js, Tailwind CSS

Databases: PostgreSQL, MongoDB, Firebase, Elasticsearch

Cloud & DevOps: AWS (EC2, Lambda, S3), Azure, Docker, CI/CD (GitHub Actions, Azure DevOps)

AI/ML: TensorFlow, PyTorch, OpenCV, NLP

Tools: Git, Linux, Postman, Jira
