

ARNAV JOSHI

✉ arnavjoshi0512@gmail.com | 📞 +91 9356351894 | 🌐 arnav-joshi-aj05 | 🐙 arnvjshi

IT undergraduate specializing in **Full-Stack Development**, **Cloud Computing**, and **AI/ML**. Skilled in architecting scalable web applications, microservices, REST/GraphQL APIs, and serverless systems. Proficient in Agile practices, CI/CD automation, containerized deployments, and native observability in the cloud.

EDUCATION

B.Tech in Information Technology (Honors)
Shri Ramdeobaba College of Engineering and Management, Nagpur

2023 – 2027
CGPA: 8.99

EXPERIENCE AND INTERNSHIPS

Tech Intern — CompEx 2025

Nagpur — Jan 2025

- Developed a real-time scoreboard system using **React + Firebase Realtime DB** for 100+ participants.
- Systematized data synchronization via Firebase Cloud Functions, cutting manual delay by 35%.
- Devised role-based dashboards and analytics tools for efficient event operations.

Android Developer Virtual Intern

Remote — Apr-Jun 2025

- EduSkills (AICTE – Google for Developers)
- Completed a 10-week structured virtual internship in Android development.
 - Learned Android UI components, application lifecycle, and best practices.

Full Stack Developer Intern — Youniformwala

Remote — May-Aug 2025

- Engineered a scalable **Next.js + FastAPI + SQLAlchemy + PostgreSQL** e-Commerce platform using microservice architecture.
- Implemented JWT authentication, OAuth2.0, and RBAC to strengthen API security.
- Enhanced database query performance and API efficiency, reducing latency by 25%.
- Deployed automated CI/CD pipelines using **GitHub Actions** and Docker for AWS EC2.
- Orchestrated CloudWatch-based monitoring to proactively identify system errors.

Cloud Virtual Intern

Remote — Jul-Sep 2025

- EduSkills (AICTE – AWS Academy)
- Completed a 10-week cloud internship based on AWS Academy curriculum.
 - Studied cloud fundamentals including compute, storage, networking, and security.

PROJECTS

AI Misinformation Detection Agent

Next.js, Flask, Elasticsearch, Hugging Face, AWS Lambda

- Constructed a multimodal agent integrating text, audio, and image analysis to identify misinformation with **92% accuracy**.
- Leveraged **Elasticsearch** for fast content indexing and semantic retrieval, cutting query latency by **40%**.
- Rolled out backend inference pipeline on **AWS Lambda**, reducing compute costs by **30%**.
- Designed real-time dashboard in **Next.js** for visualizing credibility and detection confidence.

EduBot

Next.js, Flask, Gemini 2.0 Flash

- Formulated an **AI-powered learning platform** with a Next.js frontend and Flask backend for real-time content generation.
- Integrated **Gemini 2.0 Flash APIs** to generate explanations, flashcards, MCQs, and quizzes dynamically.
- Applied **user preference handling** to personalize learning content and difficulty levels.
- Created scalable REST APIs enabling **low-latency, interactive learning experiences**.

ThreatDetect Dashboard

Next.js, GROQ, Gemini, Tailwind, Framer Motion

- Authored a threat intelligence dashboard processing **200+ inputs daily** from text and voice.
- Improved text classification accuracy by **18%** using GROQ fine-tuning.
- Improved UI/UX responsiveness with **Framer Motion animations**, boosting engagement time by **25%**.

Legacy2Cloud

FastAPI, PostgreSQL, Nginx, systemd, Linux

- Executed **legacy system migration** from JSON-based storage to a relational **PostgreSQL** database with validated data consistency.
- Built and provisioned a **FastAPI REST service** to expose inventory and order management endpoints.
- Executed **Nginx reverse proxy configuration** for secure HTTP routing and controlled public access.
- Managed application processes using **systemd**, enabling automated startup, fault recovery, and operational stability.

CERTIFICATIONS

[ALL CERTIFICATES](#)

- **AWS Academy Graduate – Cloud Architecting** (60 Hours), Sep 2025
- **AWS Academy Graduate – Cloud Foundations** (20 Hours), Sep 2025
- **Network Support and Security**, Cisco Networking Academy, Dec 2025
- **Networking Basics**, Cisco Networking Academy, Dec 2025
- **Networking Devices and Initial Configuration**, Cisco Networking Academy, Dec 2025

TECHNICAL SKILLS

Frontend: React, Next.js, HTML5, CSS3, Tailwind, Redux, ES6, Responsive Design, Webpack, Vite
Backend: Node.js, Express, Flask, REST APIs, GraphQL, Microservices, JWT, OAuth2.0, WebSockets
Databases: MongoDB, SQL (PostgreSQL/MySQL), Firebase Realtime/Firestore, ElasticSearch, Redis
AI/ML: TensorFlow, PyTorch, OpenCV, Hugging Face Transformers, NLP, GANs, Image/Audio Processing
Cloud/DevOps: AWS (EC2, Lambda, S3, CloudWatch), Azure, Docker, Kubernetes, CI/CD, Serverless, GitHub Actions
Tools & Others: Git, GitHub, Agile/Scrum, Jira, Postman, Figma, VSCode, Linux, Bash, Shell Scripting
